PROFESSIONAL SUMMARY

Senior Product Designer with 5+ years of experience designing enterprise SaaS platforms, AI-powered workflows, and intelligent product experiences. Specialises in bridging product strategy, UX architecture, and rapid AI-assisted prototyping to deliver scalable, action-oriented systems. Proficient in AI search, voice UX, multi-agent workflows, design systems, and modern stacks including Figma, Cursor, Claude, and Supabase.

WORK EXPERIENCE

Executive UI/UX Designer

Congruent Solutions · Chennai, India Sep 2025 – Present

- Driving AI-first product design for enterprise retirement platforms, transforming legacy dashboards into intelligent, action-oriented AI workspaces with voice-enabled workflows.
- Designed AI-powered search and command systems enabling unified discovery, contextual navigation, and task execution across all platform modules.
- Defined scalable UX patterns for AI integration across enterprise financial systems, ensuring trust, clarity, and regulatory compliance throughout.
- Rapidly prototyped production-grade experiences using Cursor, Claude, Supabase, GitHub, and Netlify; collaborated with product, engineering, and business stakeholders.

Product Designer

Euroland IR · Chennai, India Jul 2023 – Sep 2025

- Led end-to-end design of CRM dashboards, task management tools, client-facing websites, and mobile apps for IR managers, boosting user engagement by 25%.
- Conducted user research including interviews and usability testing to inform design strategies, resulting in a 30% increase in user satisfaction scores.
- Created wireframes, interactive prototypes, and high-fidelity designs in Figma; built and maintained a scalable design system adopted across 4 products.
- Collaborated with product managers, developers, and stakeholders in Agile/Scrum to align design solutions with business goals and engineering constraints.

Application Engineer

Embarckle · Coimbatore, India Aug 2021 – Aug 2022

- Developed and maintained responsive web applications using .NET and C#; conducted Selenium testing and API integrations within cross-functional Agile teams.
- Contributed across the full SDLC — from design documentation to deployment — gaining deep understanding of engineering constraints that now informs design decisions.
- Documented technical specifications and UI requirements, bridging communication between engineering, QA, and business stakeholders on multiple concurrent projects.
- Supported front-end development tasks including layout implementation, component styling, and cross-browser compatibility testing for client-facing applications.

Graphic Designer

Apexs Automation · Chennai, India Oct 2020 – Aug 2021

- Designed branding materials, marketing campaigns, and social media graphics for B2B clients, contributing to a 15% increase in client engagement metrics.
- Collaborated with clients to understand requirements, producing layouts, mockups, and print-ready prototypes across digital and physical deliverables.
- Managed multiple concurrent design projects, consistently meeting tight deadlines while maintaining high standards of visual quality and brand consistency.
- Developed brand guidelines, logo systems, and visual identity assets for 6+ clients — building a foundation of systematic design thinking carried into UX practice.

PROJECTS

Magnil Employee Management	— Android application for the automobile industry to manage and track daily activities, improving operational efficiency by 30%.
Food Delivery App	— User-friendly ordering platform with real-time tracking and secure payments, contributing to a 40% increase in user retention.
Website Design - E-commerce Platform	— User-friendly ordering platform with real-time tracking and secure payments, contributing to a 40% increase in user retention.
AI Search in Investor Relations	— Visually appealing, responsive e-commerce interfaces with seamless navigation and optimised checkout experience across all device types.
CRM Platform for Task Management	— Led end-to-end design of CRM dashboards, task management tools, client-facing websites, and mobile apps for IR managers, boosting user engagement by 25%.
US Retirement Participant Portal MVP	— End-to-end schema design and feature ownership for enterprise AI search. Designed intelligent search UX patterns for IR managers enabling document discovery and financial data querying. Increased user query efficiency by 35%.
US Retirement Participant mobile app android/IOSPortal MVP	— Designed and developed full MVP using Claude and Cursor for US retirement industry. Built complete participant experience from wireframes to production. Shipped in 6 weeks with 500+ beta users, achieving 4.2/5 satisfaction score.

CORE SKILLS

UX Research · User Testing · Business Analysis · Customer Journey Mapping · Information Architecture · Wireframing · Prototyping · Interaction Design · Visual Design · Design Systems · Design Sprints · A/B Testing · Agile / Scrum · Kanban

AI & INTELLIGENT SYSTEMS

GenAI Product Design · AI Search Experiences · Voice UX · Agentic UX · Multi-Agent Workflows · Human-AI Interaction

TOOLS & SOFTWARE

Figma · Adobe XD · Illustrator · Photoshop · Cursor · Claude AI · Supabase · GitHub · Netlify · Framer · Lottie Lab · Balsamiq · Notion · Miro

EDUCATION

B.TECH – Information Technology
Sathyabama Institute of Science and Technology, Chennai
2016 – 2020

Advanced Design & Technology
Buff Creative College, Coimbatore
Sep 2022 – Jun 2023

Python Programming Course
Qtree Technology
Mar 2021
